Full Stack Web Developer

Harnessing my strong sense of responsibility, dedication to work, and strong motivation to work, and benefiting from the qualifications and skills I acquired through courses and academic achievement in serving and developing work for you.

I'm computer science graduate with 4+ years' experience, I have completed 14 jobs on Upwork with 5 stars. I love working as a web developer very much. I always work to develop myself and have a big passion and very excited about a new position after I finished my military service (reserve officer).
